

CieAura

THINGS TO KNOW:

- For best results, keep your body properly hydrated
- Chips are non-transdermal; nothing enters the body.
 - Do not keep the Chips in your pocket as they are activated when they come within 2" of your body.
 - Keep away from magnets; they can erase the Chip.
- If you take medication, ask your doctor before using.

CieAura Transparent Holographic Chips™ are a revolutionary new technology that combines more than 3,000 years of homeopathic treatments with cutting edge 21st century technology. CieAura's patent-pending equipment accurately implants Intrinsic Vibrations™ into the transparent holographic chip. The implanted formulas are multi-process programs of several compounded vibrations which are based on combinations of homeopathic studies. The Chip effectively is an advanced programmed hologram that communicates with your body. Everything in your body vibrates. Our Chips work with the body's vibratory signals to optimally tune your body. CieAura Chips are available in Energy Chips, Sleep Chips & Pain Relief Chips.

PURE ENERGY plus

Think of the body as an orchestra of vibrations. The body has a central conductor that coordinates and makes all the vibratory parts work together in harmony. Physicists have proven that the body emits light (a vibration) and that the light gets brighter when we are ill. They believe this light to be the central conductor. Energy Chips work with this central conductor to "balance" your body. The Energy Chip does not create strength you do not already possess. Instead, it makes the body function at its optimum, resulting in more endurance, stamina and concentration as it maximizes the body's immune system.

- 1) Place the Energy Chips on acupuncture points as shown. Other points include just above the inner wrist and halfway up the leg—inside, near the shin bone.
- 2) Multiple CieAura chips can be used in combination.
- 3) Chips can be placed on either side of the body.
- 4) Pure Energy plus can be used for approximately 48 hours.
- 5) CieAura Transparent Holographic Energy chips should be worn at least 4 to 5 days a week for consistent body balance.

REST QUIET

CieAura Transparent Holographic Sleep Chips (RestQuiet) will provide a peaceful night's sleep:

- These chips do not put you to sleep, but allow for a deeper, more restful sleep. They will put you into REM (Rapid Eye Movement) sleep, so you will wake up fresh. Sharp, clear dreams are a sign it is working.
- The chips can reduce or eliminate annoying respiratory snoring.
- They help improve your health and immune system through the experience of enhanced deep rest.

- 1) More than one chip can be used at once.
- 2) Place chips on either side of head.
- 3) RestQuiet can be used multiple nights; for 16 to 24 combined hours.
- 4) For best results, RestQuiet should be worn every night. If you have limited results the first night, keep using the chips for at least one full week.
- 5) On rare occasion, on first application, a slight temporary headache may occur due to the body detoxifying.

PURE RELIEF

CieAura Transparent Holographic Pain Chips (Pure Relief) can be used for:

- Lower back Pain
- Headache (including migraines)
- Neck Pain
- Knee Pain, Elbow Pain, Wrist Pain, Shoulder Pain, Ankle Pain, Hip Pain, Leg Pain and many other common body pains
- Sore Muscles

- 1) More than one Pure Relief Chip can be used at a time.
- 2) For best results, place a chip on both sides of the painful area.
- 3) Optimum usage is 1 to 3 days. Replace chip if the pain returns.
- 4) If pain continues, add another chip and allow 24 hours for chip to work. (In most cases, relief is very quick.)
- 5) May be used on animals with the same effect.
